Recruitment Team  
ING

Dear Hiring Team,

I am thrilled to apply for the International Talent Programme (ITP) at ING. With my background in full-stack software engineering, a passion for technology, and a natural affinity for leadership, I believe my skills align perfectly with the opportunities offered in the ITP.

Having developed my expertise in both .NET and React through hands-on experience at ING Turkey, I have honed my ability to solve complex problems and deliver user-centric software solutions. My colleagues and mentors often commend my strong leadership and organizational skills, recognizing my capacity to guide projects beyond expectations while fostering collaborative teamwork. I particularly value ING's emphasis on innovation and agile principles, which reflect my own approach to technology and organizational growth. Here at ING, I learned how to be myself first, than an ING'er.

The rotational structure of the ITP resonates with my love for exploring new technologies and my desire to stay current with industry trends. I am excited about the prospect of leveraging my experience to make a meaningful impact in the banking sector, delivering software tools that exceed user expectations and contribute to ING's success. I am confident that my ability to embrace challenges, coupled with my proactive and solution-oriented mindset, will be a valuable addition to your team.

Thank you for considering my application. I am eager to bring my passion, technical expertise, and leadership skills to ING's International Talent Programme and look forward to the opportunity to contribute to your vision. Please feel free to contact me at +905377991151 or via email at aysegul.99@windowslive.com if you require any additional information.

Best regards,  
Aysegul Oguz
